Subject: Interference in working of Central Insecticide Inspectors by State functionaries-
reg.

Sir,

As you are aware that a number of officials working in this Directorate who are posted at different stations all over the country are notified as Insecticide Inspectors u/s 20 of The Insecticides act, 1968 by Ministry of Agriculture for effective implementation of The Act, 1968 To check the quality of the pesticides Central Insecticide Inspectors (CIIs) all over India have been allocated areas near to their place of posting and assigned a task of drawing 02 samples per month from their allocated areas from the premises of dealers, manufactures and distributors etc. Besides this, raids are regularly conducted all over India in the premises of manufacturers, dealers and distributors etc, on the basis of the complaints received from various sources. It has been noticed recently, by undersigned that state functionaries are intervening in the work of Insecticide Inspectors who are performing duties as per the instructions issued by DAC.

It is therefore requested that all your states functionaries who are directly or indirectly in contact with the dealers, manufacturers and distributors etc. may be given necessary direction not to intervene in the work of CIIs and extend full co-operation to them for effective monitoring and checking of quality of pesticides. All the persons involved in the trading and manufacturing of the pesticides may also be informed about the duties of CIIs. Regular inspection and drawl of samples will be carried out by CIIs without any prior intimation to any state functionaries for maintaining secrecy in case of inspection/raids and drawl of samples.

Yours faithfully,

30/12/14
(S.N. Sushil)
